

ROLAND VISUALISING THE ROAD AHEAD

As a leading global manufacturer in the transport sector, Roland knows life on the road can be tough. That is why we have created a product that changes everything. A product combining cutting-edge printing technologies and superior durability, under all conditions. We proudly present InfiniShield®.

InfiniShield® - The ultimate printed curtain

InfiniShield is a new, revolutionary product that brings together a full range of digital printing technologies on PVC material combined with multiple protective coatings to provide the perfect printed side curtain solution for every trailer.

- **LEADING DIGITAL PRINTING TECHNOLOGY**
We always keep up with the current technological innovations - following and fueling them.
- **SUPERIOR DURABILITY**
The unprecedented toughness and endurance of InfiniShield in all weather conditions allows us to offer a staggering five year warranty on our products.
- **SMOOTH CLEANING**
InfiniShield significantly lightens the burden of keeping the trailer clean, because the revolutionary surface ensures most of the dirt is simply, but conveniently, washed away.
- **BREATHTAKING GRAPHICS**
We offer a thorough understanding of color, composition, typography and design principles to create breathtaking full-color prints, customizable to any wish.
- **THOROUGHLY TESTED AND BUILT TO LAST**
InfiniShield's products are exposed to thousands of hours of UV light and pressure simulating the harsh life on the road.

VISUALISING THE ROAD AHEAD

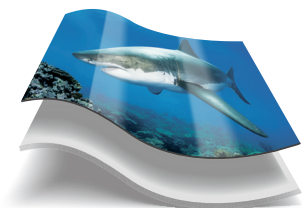

InfiniShield®

The ultimate printed curtain

OUR PRODUCTS

InfiniShield® R2

Our standard product with high definition printing technology and specification tailored for every curtain.

InfiniShield® R2

Tailored printing solution

UV-resistant for 2 years

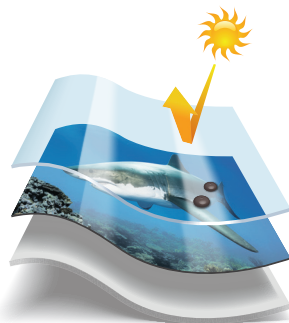

-

Standard dirt resistance

Standard fading resistance
